ABSTRACT

HOMA has provided two styles of threaded cable inlet. It is important to know the style used before placing an order for replacement parts. This document will help you to identify which model your pump is equipped with.

STYLES

| PG Style inlet with rounded face and triangular screws |
| Flat Style inlet with flat face and allen key screws |

HOMA part number or pump serial number must be supplied with this model.

PARTS

- Cable Entry Socket
- Connection To Motor Cap
- Washers
- Grommet
- Clamp With Locking Tang
- Screws
