

Warranty

Municipal Installations

"A" Series Pumps

HOMA Pump Technology Incorporated (referred to hereafter as the Company) warrants its A Series pumps to be free from defects in workmanship and materials for the period defined below, from date of shipment to end customer, when used in a Municipal Sewage Collection or Treatment System or similar pumping application pumping raw sewage or municipal waste water of a non-corrosive, non-abrasive nature.

HOMA Pumps, when used in a Sewage Lift Station for intermittent duty cycle (less than 50% duty cycle) at a fixed speed shall be warranted for a period of 5 years as per the below terms.

HOMA Pumps, when used in conjunction with VFD drives, or in fixed speed applications of a more continuous duty cycle (50% or more) shall be warranted for a period of 12,000 hrs. of operation as per the below terms.

Important: Monitoring devices (ex. thermal switch, seal probe, etc) supplied with pump must be properly wired into a circuit within the control panel that will provide adequate protection to the pump. Failure to properly connect and utilize provided monitoring devices will invalidate this warranty.

The Company shall pay the following share of refurbishing costs provided the complete pump and power cable / defective component is returned prepaid to the HOMA Repair Center in Ansonia, CT or an Authorized HOMA Service Center. Labor charges for warranty repairs shall not be assumed by the Company for repairs made after one (1) year from date of shipment to end customer. All returns must have prior written authorization from the Company prior to shipment.

		TIME IN FIELD			
Intermittent Duty	Months:	0-18	19-31	32-45	46-60
Continuous Duty	Hours:	0 - 3000	3000 - 6000	6000 - 9000	9000 - 12,000
	Warranty:	100%	75%	50%	25%

Time in field shall be determined from shipment date to date warranty claim is registered with Company.

Field Start-up Report, along with control panel wiring diagrams and bills of material must be provided with any warranty claim.

This warranty excludes failures caused by improper mechanical or electrical installation, defects or imbalance in power supply or electrical protection, abrasive wear or improper maintenance or service activities. There must be no splice in the electrical cable within the wet well and pump thermal overload protection must be properly wired into control panel.

The Company's sole obligation under this warranty shall be to make repairs and/or replace parts when necessary on products that have been returned and found to be defective by the Company. The Company shall not be liable for any special, indirect, or consequential damages of any kind. Major components not manufactured by the Company are covered by the original manufacturer's warranty in lieu of this warranty.

The Company will not be held responsible for travel expenses , rented equipment, outside contractors fees, or unauthorized repair expenses.

The company neither assumes nor authorizes any person or other company to assume for it, any other obligation in connection with the sale of its equipment. Any enlargement or modification of this Warranty by a Representative, Distributor or other Sales Agent is expressly forbidden by the company. This warranty shall extend only to the original Owner and shall not apply to any products that have been repaired or altered without the Company's consent or have been subject to misuse, accident or neglect.

NO OTHER WARRANTIES EXPRESS OR IMPLIED, INCLUDING IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE WILL APPLY.
